

Our Vision

Maytree is a place where

... children and families are at the heart of the school and children's centres and Maytree is highly regarded by the local community

... staff work together and have pride in their contribution to making Maytree school and children's centres highly successful

... we all play a part in encouraging our children to develop, learn and grow helping them to love life, discovering their own passion - dancing, reading, designing, building or organising a great social life! - in the future, be active and contribute to building strong communities

... staff, children, parents, carers and childminders are excited by learning and everyone is keen to learn more

... the lives of families can change
